

## A snow globe with an angel made from Fimo

v15968

Make your own snow globe with an angel modelled from Fimo as a gift idea or a Christmas decoration. Model the angel from Fimo, assemble it, bake it in the oven and glue it onto the inside of the lid of the snow globe.

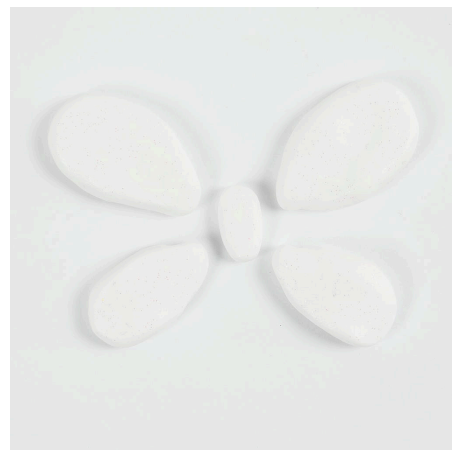

### *Comment faire*

**1** Model the various parts for the angel and make sure that it fits inside the snow globe.

**2** Assemble the parts for the angel.

**3** Model the different parts for the wings from Fimo and assemble them.

**4** Attach the wings onto the angel's back.

**5** Use a wooden flower stick to make the eyes and the mouth.

**6** Fix the Fimo figure in the oven at 110°C for 30 minutes.

**7** Pour water into the snow globe and sprinkle glitter and sequins into the water.

**8** Glue the Fimo angel onto the inside of the snow globe lid and screw on the lid.

**9** You may decorate the snow globe further with three rings made from pipe cleaners around the lid.
