

Upcycling fabric with prints

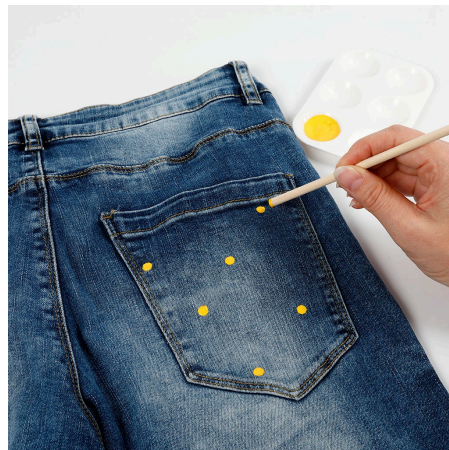

v16152

Freshen up a pair of jeans with small flowers printed onto the back pocket using craft paint and Textile Medium.

Comment faire

1 Mix craft paint and Textile Medium in the ratio 1:1, ensuring that the paint withstands washing after fixing with an iron.

2 Make the centre of the flower with a round object; for example a wooden stick or the end of a pencil.

3 Make petals around each dot using the handle of a teaspoon or similar with an oblong shape.

4 Fix the colours with an iron on the medium setting. The trousers can now be washed in the washing machine on 40°C.
