

An apron with name and stamped fruit designs

v16189

Decorate an apron with rub-on letters and fruit designs using foam rubber stamps and ink pads. Make many different kinds of fruit by mixing the stamps and adding simple lines with textile markers.

Comment faire

1 Cut the letters away from the sheets one by one.

2 Remove the protective paper from the back of the letter and place it on the apron.

3 Rub the letter onto the apron using the supplied wooden stick. Make sure to rub thoroughly for the letter to attach completely.

4 Carefully remove the protective top foil layer from the letter. Follow the procedure described in the steps above until all the letters are attached.

5 Push your chosen foam rubber stamp into the ink pad and then onto the apron. Here we have made cherries.

6 Use a textile marker to make the cherry stalk.

7 Fix the apron with a warm iron. Place a sheet of baking paper between the printed apron and the warm iron and iron for a couple of minutes. Avoid the rub-on letters as the iron will melt them. You can now wash the apron in the washing machine at 40°C.

8 Here is an apron, a tea towel and pot holders with different fruit designs.
