

Cone & Christmas Tree decorated with Glitter Paint & Rhinestones

v13967

These two hanging decorations, a cone and a Christmas tree, are made from punched-out card in a cone shape. They are decorated with dabbed-on A-Color acrylic glitter paint whilst flat and unassembled as well as with rhinestones. Assemble with glue.

Comment faire

1. Decorate the cone whilst it is lying flat (unassembled). Dab on A-Color acrylic glitter paint using a foam stencil brush.

2. When dry, glue on rhinestones using Clear Multi Glue gel.

3. Assemble the cone using a glue stick. Hold the cone in its shape until the glue has dried.

4. Attach a handle to the traditional cone. Attach a piece of silver thread through the pointed end of the cone. Decorate the thread with a star by glueing two stars around the silver thread in the middle.
