

Christmas hanging Decorations made from Felt with Stuffing

v13914

These hanging decorations are all made from the same template. They are all drawn onto and cut out from felt, sewn together and filled with carded wool.

Comment faire

1. Print and cut out the templates which are available as a separate PDF file for this idea. Use a marker pen and draw the outlines on felt. NB: Draw and cut out two of the largest shapes which will be sewn together and filled.

2. Cut out the parts.

3. Sew the two large triangular shapes together with tacking stitches. Make sure to attach the ears – which are slightly bent in the middle – as well as the other small parts beforehand. Leave an opening at the bottom for the stuffing.

4. When the hanging decoration is filled with the stuffing, sew the opening together.
