

A Paper Horse for Hanging

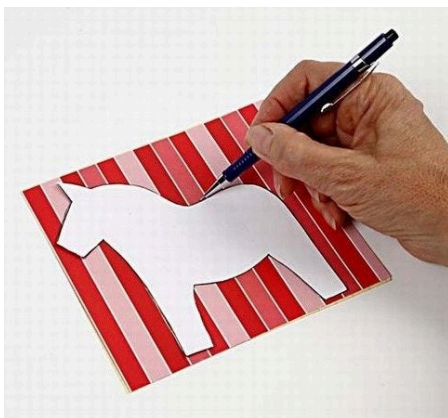

v12009

A lovely horse cut from Colorbar card. Stuck together with double-sided adhesive foil tape. Hung in a cotton string with a mother-of-pearl bead.

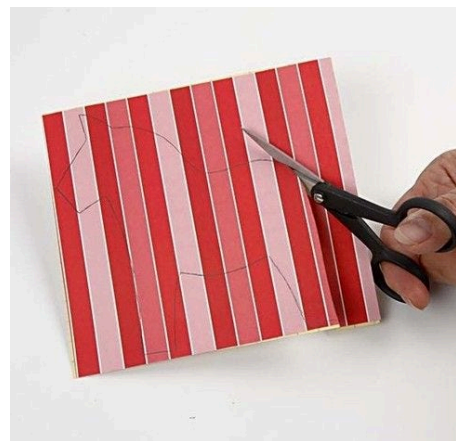

Comment faire

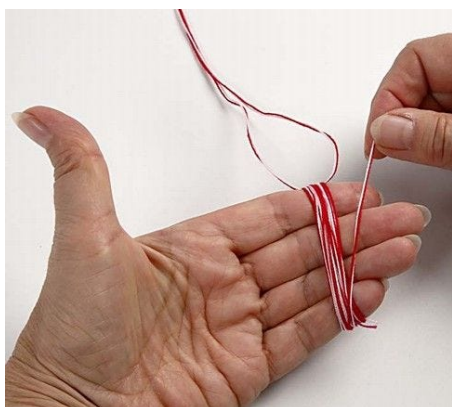

1. Remove the protective layer on the double-sided adhesive foil tape and put a piece of card on top.

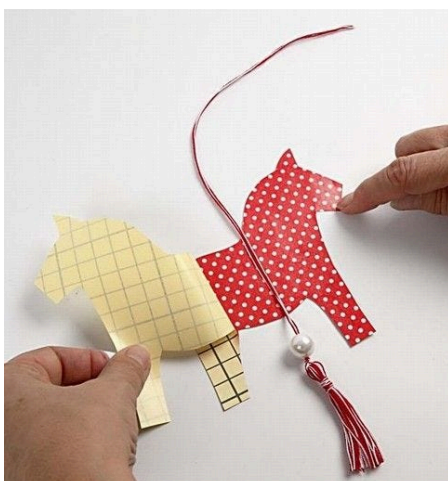

2. Use a template to draw the motif onto the paper.

3. Cut out the horse.

4. Wrap cotton yarn around your fingers to make a tassel.

5. Pull a bead onto the string for hanging. Remove the other protective layer of the double-sided foil tape and put the string on top.

6. Cut another horse. Put it onto the glue-side of the first horse with the string in the middle of the two and with the dotted side up.

7. You may glue a cake napkin around the horse. Trim.
