

## Paintings for the cool ones

v1437

### *Comment faire*

**1** Paint the panel in a light colour.

**2** While the paint is wet, make small lines in a darker colour, use the basic colour to even out the colour.

**3** Make prints from the wheels of a legocar, lace ribbon or what ever you like.

**4** Write a text with the use of a Lettering stencil and a permanent marker.

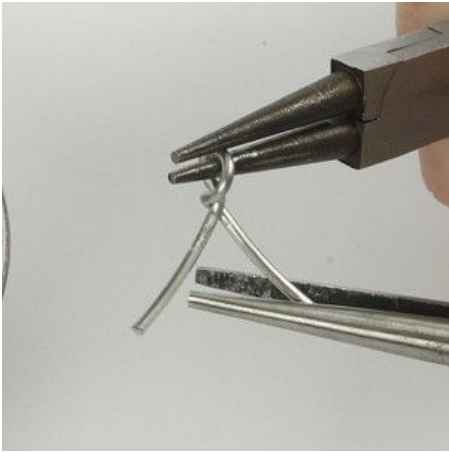

**5** Make prints by using nut, small felt figures or what ever you want.

**6** Paint screws, bolts, nuts etc in a strong colour.

**7** Make barbed wire by winding bonzai around it self and nip off the ends.

**8** Glue the things on the panel.

**9** Attach the barbed wire to the panel using glue.

**10** Attach the plate in the frame.
