

Make your own personal watch

v1424

Comment faire

1 Moist the wooden border with water. Put Color-line in the pipette.

2 Drip down on to the wet border. If it dries up, you can moist it again.

3 Drip with a new colour.

4 You can drag the colour out with a brush. Drip again.

5 -

6 Draw with a black marker - use your imagination.

7 Use the same procedure for the clock face.

8 -

9 -

10 Glue the ring to the clock face.

11 Put on numbers and mount the clockwork. Read the instructions.
