

Une carte papillon

v11288

Le papillon est réalisé à l'aide d'un Tapis Shape Cutter Fiskars et la carte est décorée d'un ruban de coeurs.

Comment faire

1 Attach the heart ribbon with double-sided adhesive tape onto the bottom of the card.

2 Draw three butterflies using the Fiskars template - one in Vivi Gade Design Paper, one in purple card and one in vellum paper. Cut off 5-7 small hearts from the heart ribbon.

3 Attach the largest butterfly using double-sided adhesive tape. Attach the middle-sized with 3D foam pads on the wings and double-sided adhesive tape in the middle.

4 Attach the smallest butterfly with double-sided adhesive tape. Bend it a bit in the middle to give it "air underneath its wings".

5 In black card, cut out the body/feelers using the Fiskars template and secure with 3D pads.

6 Attach the small satin hearts with Clear Marker.
