

## Transparent hanging glass decorations

v11252

These clear glass plates with holes have been transformed into birds in bright spring colours. One side of the glass plate has been drawn with glass and porcelain markers – and the other side has been coloured with A-color Glass paint.

### *Comment faire*

**1** Put the glass plate over the drawing (printed from the website) and draw with the marker.

**2** Turn over the glass plate and paint the bird with the A-Color Glass paint on the back and let it dry. Fit a hanging cord.
