

Earrings

v11231

Very elegant earrings with faceted glass beads and turquoise stone beads.

Comment faire

1 Insert a piece of beading wire into the loop on the stud earring. Close with a crimp bead.

2 Thread beads and metal discs onto the beading wire and finally a crimp bead.

3 Thread the wire through a round jump ring, back through the crimp bead and a bead. Squeeze the crimp bead flat and cut off excess wire.

4 Cut three pieces of chain and glue them in place with Super Attak Instant Glue in their individual end caps. Squeeze the end cap slightly flat.

5 Gather all the parts in a round jump ring.
