

A Card for gift vouchers

v11228

A beautiful folded card with space for a personal greeting or for example a gift voucher. The card is ideal as a telegram.

Comment faire

1 Cut a card measuring 21 x 30cm and fold it so that it measures 7.5 – 15 – 7.5cm. Now cut all the other parts. Inside: Approx. 14 x 20cm - adapt it to the border which is meant to be the pocket: 14.5 x 6cm. Outside: Two pieces measuring 5 x 20cm - punch corners in one side. Two pieces measuring 4 x 21cm – One piece measuring 2 x 30cm. Two pieces measuring 2.5 x 21cm – punch a border in one side.

2 Start by making the outside. Glue the various rectangles onto the doors in order, and finish with the borders, which are attached with 3D foam pads. Cut a half circle on both sides, approx. 4cm up.

3 Fit the back first on the inside of the card, then attach the pocket with double-sided adhesive tape on both sides and the bottom. Attach a ribbon (approx. 40cm long) approximately 4cm up on the card from both sides, so you can tie a bow in the middle. Make sure that the ribbon goes across the two half circles in the doors.

4 Finish the card by decorating it with rhinestones or stickers. The card is now ready for you to put your personal greeting in the inside pocket.
