

## Macramé pastel bracelets

v11216

The delicate macramé bracelets are made from thick soft cotton twine in pastel colours. Large novelty shape plastic beads are added as you go along. Use a clipboard to attach the loop of the twine - it makes it easy when braiding.

### *Comment faire*

**1** Attach the twine with the loop on the clipboard and braid a short length. Attach the novelty shape plastic bead onto the cotton twine whilst braiding.

**2** Finally tie an end knot after another bead at the end which can serve as a fastener in the bracelet's start loop.
