

## T-shirts with princess crowns

v11204

The cute t-shirts with princess crowns are easy to make. First line the t-shirt with plastic. Then attach masking tape onto a limited area (see template). Paint this area with Textil Color. Let it dry. Use the template to draw the princess crown using a wide black fabric marker or other permanent marker. Paint the crown with Art Metal gold paint. Fix with an iron when completely dry. Finally make blobs with 3D liner glitter gold and attach rhinestones into the blobs to create a beautiful effect. The t-shirt can be hand washed or washed in a laundry bag on the wool/silk delicate washing program in the washing machine.
