

## Cornets with beads

v11117

Cones, tissue paper, adhesive lacquer and beautiful plastic beads on bonsai thread have become beautiful cones and a Christmas tree. A good idea for the young children.

### *Comment faire*

**1.** When you need a lot of tissue paper squares, we hereby show a quick way to cut them. First cut strips from the layers and thereafter squares.

**2.** Spread VTR glue onto the papier-mâché cones and attach the pieces of tissue paper.

**3.** Sprinkle glitter in the wet glue.

**4.** Pull beads onto bonsai thread.

**5.** Make a hole in the cone with hole punch pliers.

**6.** Pull the bonsai thread through. Put on more beads if you wish and twist the end into a spiral.
