

## A bookmark with letter print

v11574

Watercolour paper painted with Aqua Pigment and water. After drying, stamp with rubber stamps and black VersaFine Ink Pad. Attach book cover foil for practical protection. Before starting school it is fun to make bookmarks with stamp printing - especially with letters. But the bookmark is also an ideal gift idea - especially if you have stamped the receiver's name onto the bookmark and attached lovely fringes of cotton yarn.

### *Comment faire*

**1.** Paint the watercolour paper with Aqua Pigment and water.

**2.** When the watercolour paper is dry, stamp with rubber stamps and black VersaFine Ink Pad.
