

Babushka painting

v11528

These small paintings are easy to make with acrylic paint.

Comment faire

1 Paint the canvas completely black and let it dry. Draw the shape with white and fill the shape with white acrylic paint. Use plenty of water in your acrylic paint.

2 Draw all patterns and lines onto the now white shape, and colour it in. Continue to use a lot of water in your acrylic paint to achieve a transparent effect. Now let it dry.
