

Glass Bead Bracelet

v11515

Bracelet and earrings with handmade glass beads with a flower design and metal fashion links in an antique look. Quick and easy to make.

Comment faire

1 Thread beads and pendant onto a piece of elastic beading cord and close with five or six tight knots. Preferably reef knots. Pull the knot into the inside of the nearest bead.

2 For the earring put beads and fashion links onto a head pin. Snip off a bit of the pin and twist to make a double loop and then attach it to the ear wire.
