

Laminated butterfly place cards

v11379

Lovely laminated place cards with a die-cut butterfly made with a Sizzix Die on the Big Shot machine. The card is laminated, the name is written with 3D liner. The clear laminate gives subtlety to the place card if you trim the edge to ½cm. This also gives you the opportunity to use the place card again.

Comment faire

1 Put black coloured paper onto the die. Put an acrylic cutting pad above and below.

2 Run the whole assembly through the Big Shot die-cutting machine.

3 Assemble the parts.

4 Glue the parts with Clear Marker.

5 Cut a piece of black card measuring 11 x 11cm and a coloured piece of card measuring 10 x 10cm. Assemble the two cards and glue the butterfly parts together with double sided adhesive tape.

6 Run carefully through the laminating machine.

7 Trim approx. ½cm from the edge of the card.

8 Write the name with 3D liner.
