

Owls on shells

v11316

Owls drawn onto capiz shells with a glass and porcelain marker. Use the template.

Comment faire

1 Print out the design from the website. Put the shell over and draw. You can vary the pattern on the owl so it is both striped and dotted. Alternatively you can use a permanent marker to draw with and use A-Color Glass for the colour. Cut a hole in the shell with hole pliers and tie the shells together with fishing line.
