

Needle Felting on Polystyrene

v11817

These lovely penguins are needle felted onto polystyrene and with an added wood button as a foot. Amusing eyes are added at the end for an humorous expression.

Comment faire

1 Felt wool onto the polystyrene item. The longer you felt, the denser the wool becomes.

2 Push the amusing eyes – adding a blob of glue onto the back of the eye – into the polystyrene item.

3 Felt the beak, feet and wings separately using a needle felting foam pad.

4 Felt on the beak, wings and feet.

5 Felt the hat separately making a thick triangular shape.

6 Felt the hat onto the front of the head.

7 Felt the mice heads with grey wool onto polystyrene eggs. Felt the ears separately using a needle felting foam pad and then felt them onto the head. To make small eyes and snouts; felt for longer and towards the middle of the woollen dots.

Hearts Felt the hearts with a felting needle and wool onto polystyrene hearts. The ribbons for hanging are from the Vivi Gade Helsinki series and are felted onto the hearts with a small wad of wool at the end.
