

## Vivi Gade Girls

v11696

Lovely hanging girls from Vivi Gade Design Paper with arms and legs made from paper yarn.

### *Comment faire*

**1.** Cut a dress and a hat from each of the paper designs using the templates. Turn the paper so the dress and the hat are different.

**2.** Attach double-sided adhesive tape to the dress and the hat and assemble.

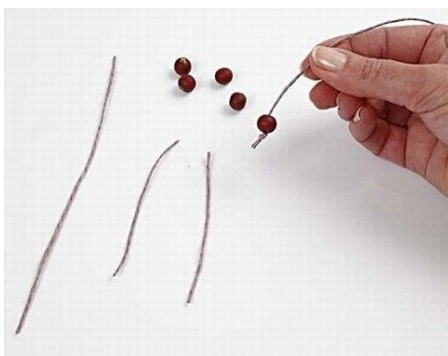

**3.** Cut the paper yarn to the desired length for arms and legs. Remember they must be long enough to tie a knot at the ends.

**4.** Paint the wood buttons (five for each girl).

**5.** Pull a bead onto each leg and arm and tie a knot.

**6.** Pull the legs through the dress. Lay the arms at the side of the dress. Feed the yarn for the legs up through the dress. Cut a small hole at the top of the dress for the yarn's exit.

**7.** Glue the ends of the arms and legs into the head.

**8.** Cut a piece of cotton yarn for hanging. Pull the yarn down through the hat and glue both ends into the head, forming a loop.

**9.** Put the last bead on top of the hat by pulling the yarn end through the bead.
