

A Tile with Glass Mosaic

v11648

Cut pieces of glass plate and glue onto a tile using Paverpol sculpting glue. Decorate with mosaic tiles as windows.

Comment faire

1. Scratch shapes and cut these with a mosaic glass cutter.

2. Glue on the pieces using Paverpol sculpting glue (which is weather resistant and can be kept outdoors).

3. Glue on small mosaic tiles as windows. The tiles can be made dirt resistant by brushing the surface with diluted Paverpol.
