

Cushions with Printed Designs

v12066

The cushions are decorated with stencil prints made with Textil Color fabric paint. Refill bottles with a fine tip are filled with Textil Color fabric paint for writing the text.

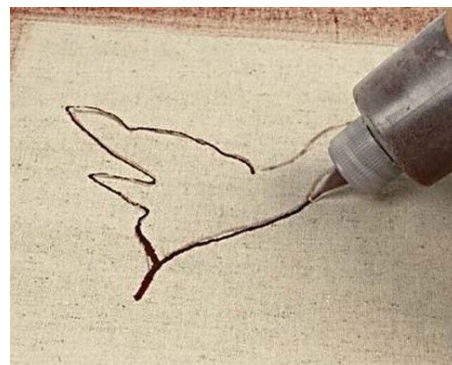

Comment faire

1 Place a plastic bag inside the cushion prior to painting.

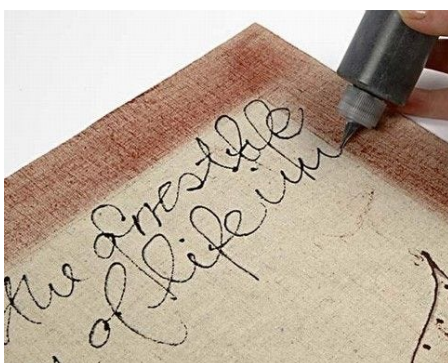

2 Place the stencil on top of the cushion and draw the design in pencil.

3 Draw the design on top of the pencil line using a refill bottle with a fine tip filled with Textil Color fabric paint. Decorate the bird with dots.

4 Make more prints – use your imagination. The black bird is made by dabbing paint onto the stencil using a foam stencil brush.

5 Write text using the refill bottle with a fine tip.
