7 Now fold the base as shown in the photo along all four edges.

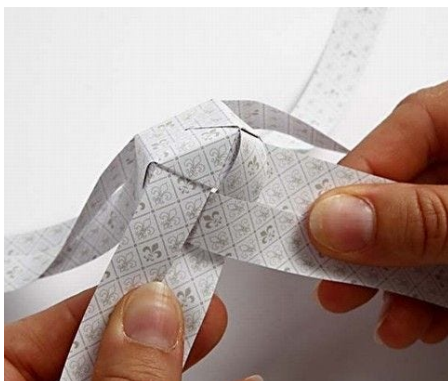

8 -

9 Start with two of the corners. Hold them in the same way as shown in the photo.

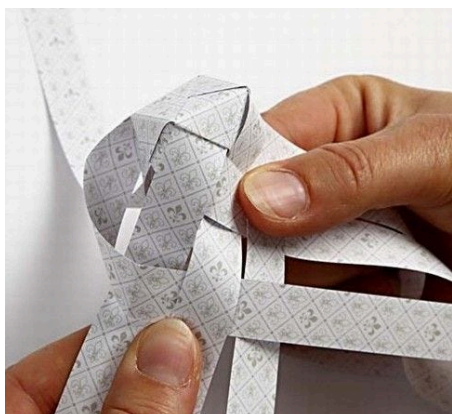

10 Always weave over and under. In that way the paper strips lock together.

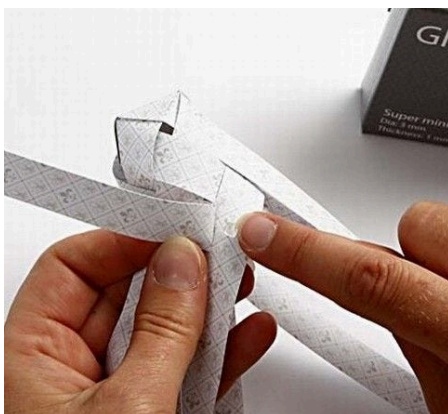

11 Tighten so the strips are adjacent to each other.

12 Take a strip from the right hand side and weave it towards the left.

13 Take a strip from the left hand side and weave it towards the right.

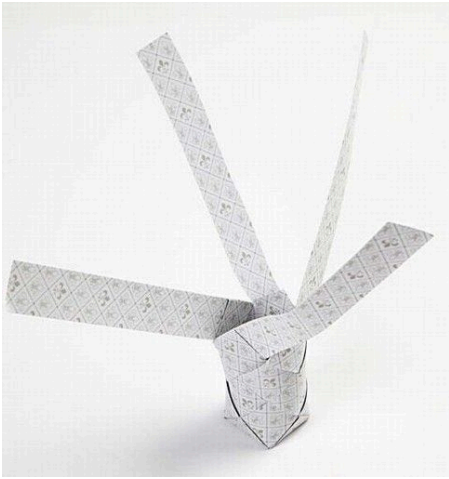

14 Attach a Glue Spot in order to keep the two strips together.

15 Cut off the end of the strip, approx. 1cm from the edge of the woven basket. Attach a Glue Spots onto the small flap, fold it over and secure it on the inside of the basket.

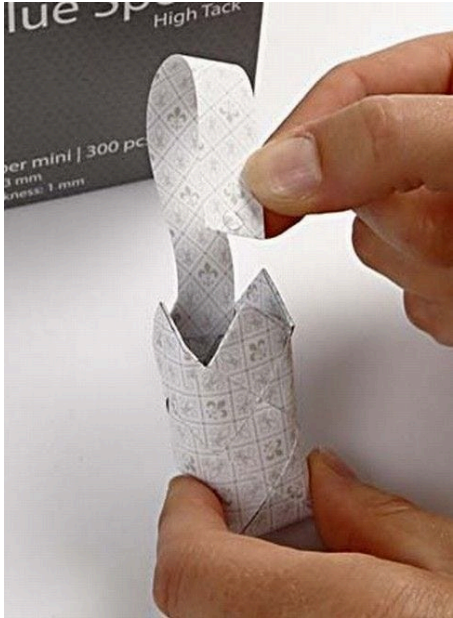

16 Repeat with all four sides. Make sure to tighten the strips continuously so ensure they are always adjacent to each other.

17 Cut off the end of the strips and secure as described in step 15.

18 Use one of the longest cut-off strips as a handle and attach this to the inside of the basket with Glue Spots.
