

Wood Icons with Structure Paste

v12022

Wood icons decorated with structure paste and painted with diluted pigment acrylic paint and with added imitation metal leaf on top of double-sided foil tape.

Comment faire

Art for everyone This activity offers real possibilities for everyone to participate - regardless of age or creative abilities. The icons can be extremely varied and you may add images or other small details into in the structure paste. Choose whether to use gold paint or the very powerful imitation metal leaf to create a shiny design. The icons can be based on established art - or, as here, just simple patterns and warm colours. Enjoy.
