

Card Making

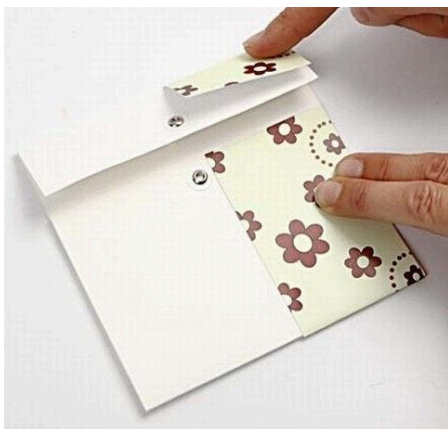

v11964

A card with ribbon decorated with Vivi Gade Design Paper (the Copenhagen series).

Comment faire

1 Cut two strips of patterned paper each measuring 5.5 x 25cm. Use the bone folder to make creases at 9cm.

2 Put the paper around the card and fold the last flap around the card.

3 Glue the two strips in place using double-sided adhesive tape.

4 Cut a red flower border and glue it on using double-sided adhesive tape.

5 Cut along the opening of the card (through the red flower border), so that the card can be opened again.

6 Insert a ribbon.

7 Cut a babushka from the design paper and put it onto a piece of red Design card. Now tear along the edge, making the white core visible.

8 Attach the babushka onto the card with 3D foam pads.
