

Stuffed Hearts

v11861

These hearts are cut from Vivi Gade Design Paper, sewn along the edges on the sewing machine and stuffed with polyester stuffing.

Comment faire

1 Draw a heart using the template and cut out – cut two hearts for each hanging decoration.

2 Apply some glue to the arches of the heart, attach the ribbon at the top and glue the hearts together, leaving an opening.

3 When the glue is dry, stuff some polyester stuffing inside and sew around the edge on the sewing machine. Use the hearts as decoration for the Christmas tree, as decorations for the window or as a gift wrapping decoration.
