

Wooden Toys

v12333

Wooden strips and wooden flower sticks have been sawn, smoothed with sand paper and glued together. Wheels, masts etc. have been added and painted with Plus Color (which has high colour intensity and excellent opacity). The Plus Color has also been used diluted. Decorate with a marker pen or with a Pyrography tool.

Comment faire

1. Use a veneer saw and a mitre box for cutting out small wooden strips.

2. Slightly sand the ends of the wooden strips.

3. Glue the parts together with express wood glue.

4. Drill holes for the wheels.

5. Nail the wheels in place.

6. Paint the car with Plus Color Craft paint diluted with a small amount of water.

7. Burn designs and text with a Pyrography tool.
