

Jewellery from Shoelaces

v12315

The bracelets are made from shoelaces. The pendants and the adjustable buttons are made from shrink plastic sheets with added plastic beads.

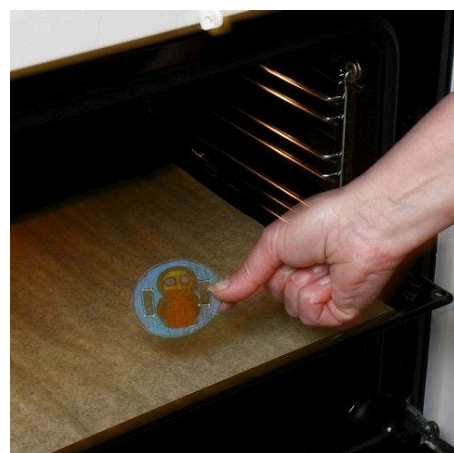

Comment faire

1. Draw and decorate on a shrink plastic sheet using Colortime Coloured Pencils. Use the template.

2. Cut out and make holes with a hole puncher. The adjustable buttons must have two elongated holes size 1 x 2cm. See the template.

3. Shrink the shrink plastic sheets in a warm household oven at 130 degrees to approx. 1/3 size.

4. Cut a shoelace in two and wrap sticky tape around the ends.

5. Push the ends through the adjustable buttons or plastic beads and attach the pendant with an oval jump ring.

6. Before and after the shrinking.
