

A Collage Frame with Pulp

v12310

Prime the collage frame with white Plus Color Craft Paint. Make waves from pulp and paint with A-Color Metallic Paint. The wood veneer shapes have also been painted and glued on with A-color Allround medium glue lacquer.

Comment faire

1. Paint the collage frame with white Plus Color Craft Paint and let it dry.

2. Paint the wood veneer shapes and the sky within the collage frame using A-Color Metallic Paint and let it dry completely.

3. Mix the papier-mâché according to the recipe and let it rest for 3-4 hours. Model the papier-mâché into the base of the collage frame (inside the frame).

4. Dab the design within the frame with A-Color Metallic Paint. Push the wood veneer shapes into the pulp and let it dry for a minimum of 24 hours.

5. Finally draw eyes and details with a poster hobby marker.

6 A tip: You may add a blob of glue to the wood veneer shape when dry.
