

## Eggs made from Colorbar Card

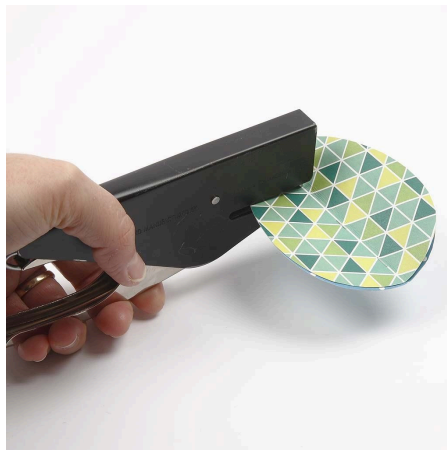

v12210

These lovely eggs are made from Colorbar card with print on both sides. Three or four eggs are stapled together with a stapler and a piece of coloured elastic beading cord is used for hanging. The effect is beautiful when the egg decoration moves.

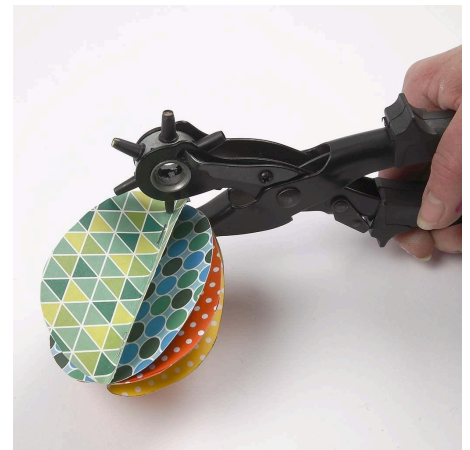

### *Comment faire*

**1.** Draw the eggs onto Colorbar card using the template. Cut out three or four eggs.

**2.** Fold the egg in the middle (horizontally) and staple all four eggs together with a stapler along the fold in the middle.

**3.** Make a hole with a hole punch and insert a piece of elastic beading cord through the hole for hanging.
