

Woollen Pots

v1215

Decorative woollen pots felted over a balloon.

Comment faire

1 Put 10 g of lime green Merino Wool thinly into a circle with a diameter of approx. 20 cm.

2 ... which cross at right angles.

3 ...der krydser hinanden.

4 Put 15 g of lime green Merino Wool on top in a circle with a diameter of approx. 40cm. The 15 g should also be distributed over the first circle. Put the wool in several thin layers which cross at right angles.

5 Pull three pieces of approx. 20 cm of the Rainbow Combed Merino Wool. Spread these out like a fan.

6 Put the fans on top of the circle.

7 Sprinkle on some water.

8 Squeeze the air out of the wool and felt lightly.

9 Put the wool over a balloon with a diameter of approx. 10cm.

10 First felt the rainbow wool in the same direction as the fibres.

11 -

12 When the wool sticks well together, felt across to gather the wool around the opening of the pot.

13 Rinse the pot in clean water.
When the pot is finished it must dry
with the balloon inside in order to
keep its shape.
