

A Macramé Necklace with Ceramic

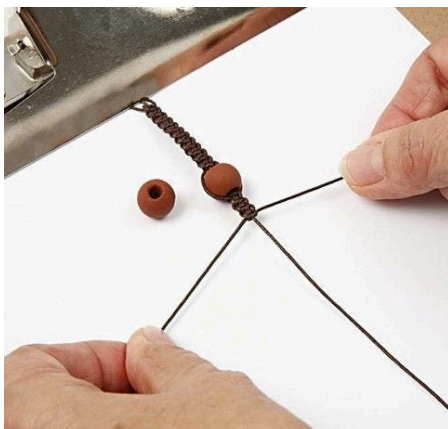

v12089

The necklace is braided using waxed cotton cord and decorated with ceramic beads and silver balls.

Comment faire

1. For a 70cm long necklace, cut two pieces of cotton cord each measuring a minimum of 300cm. Also, cut a piece of cotton cord measuring 50cm. Should you prefer your necklace a bit longer, add 40cm for each 10cm. Attach the three pieces onto a clipboard and start the braiding.

2. Braid as shown with beads inbetween.

3. Braid around the beads.

4. Put a couple of silver beads onto necklace.

5. When you have finished braiding the necklace, tie the ends together and tie knot on each cord end.
