

Card Making

v12080

Colour or blacken the card and the Vivi Gade Design Paper with Paper Soft Color. The layer-on-layer Santa is pushed out from a Vintage die-cut sheet and attached onto the card with 3D foam pads.

Comment faire

1 Cut a piece of design paper for the back ground in the same size as the card. Tear off the edge along all four sides.

2 Cut another piece of paper measuring approx. 10 x 10cm. Colour or blacken both sheets of paper and the card along the edge with Paper Soft Color. Apply Soft Color from the edge of the paper moving inwards with light rotational movement.

3 Attach the two pieces of paper onto the card with double-sided adhesive paper.

4 Push out the parts of the 3D motif from the sheet and attach to the card with 3D foam pads.

5 Make a bow from striped cotton string and attach to the card with Glue Dots.

6 For further inspiration with Vivi Gade Paper, please see ideas No. 12079, 12081, 12082 and 11883.
