

Boules with tissu de vivi gade

v12074

These polystyrene balls are covered with pieces of Vivi Gade fabric and are transformed into the most beautiful Christmas baubles when applying a coat of A-color Allround medium glue lacquer.

Comment faire

1 Cut small "pieces" of Vivi Gade fabric and glue them onto the polystyrene ball with A-color Allround medium glue lacquer. Also apply A-color Allround medium glue lacquer on top of the glued on pieces of fabric.

2 When the glue is dry, apply another coat of A-color Allround medium glue lacquer.

3 Paint wooden beads with red and white Plus Color.

4 Make a hole in the polystyrene ball. Thread the painted beads onto a piece of two-coloured paper string which is glued in place in the hole.
