

Paper Bags with Print

v12069

Paper bags decorated with Design Paper from the Oslo series, stencil print and punched-out butterflies.

Comment faire

1 Stencils on a paper bag: place the stencil on top of the bag and use a foam stencil brush to push the colour through.

2 Paint the butterflies in green and yellow colours, mixed with a small amount of white – diluted with water.

3 Draw a design with a black marker pen.

4 Glue the butterflies together in pairs around a piece of string.

5 Tie around the handle of the bag.

6 Vivi Gade Design Paper on Bags. Cut out the designs from the Design Paper and glue them onto the bag. You may outline the designs with a black marker pen.
