

## Mono Print on Hard Foil

v12508

### *Comment faire*

**1.** Place paper or card underneath the fabric, which is placed on a hard surface.

**2.** Apply some Textil Color fabric paint onto a sheet of hard plastic foil.

**3.** Scratch a pattern or design into the wet paint using an Artist Line rubber brush. Remember that any text must be written in its mirror-image.

**4.** Now transfer the sheet of hard plastic foil with the paint design onto the fabric.

**5.** Press lightly on the whole of the sheet. Let the transferred design dry for 24 hours.

**6.** Fix the finished fabric with an iron for approx. 3 minutes at a temperature suitable for cotton. Put a piece of grease proof paper between the fabric and the iron when fixing with an iron.
