

## A Necklace and Earrings with Metal Discs

v12355

The colourful metal discs are attached to a jewellery chain or a piece of leather cord with a round jump ring. It is easy to make earrings with the earwires.

### *Comment faire*

**1.** Cut a 60cm long piece of jewellery chain or to desired length.

**2.** Apply a small blob of Super Attak Instant Glue onto the fold-over cord end.

**3.** Squeeze a fold-over cord end around each end of the chain.

**4.** Attach a small and a large metal disc in two different colours onto a round jump ring and thread this onto the chain.

**5.** Attach a round jump ring onto the loop of each fold-over cord end and attach the toggle clasp.

**6.** Thread a small and a large metal disc onto the kidney earwire – like the necklace.

**See other variants** -
