

An Icon with Ferro Metal Effect Acrylic Paint

v12352

Apply a layer of Ferro Metal Effect Acrylic Paint onto an icon. Create 3D effect by applying a layer of paint inside a Fiskars shape template and press a wet stamp into the paint.

Comment faire

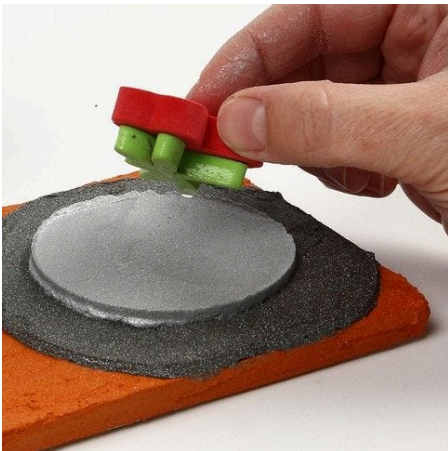

1. Apply a coat of A-color Allround medium glue lacquer to the icon plate.

2. When the glue lacquer is dry, apply a layer of Ferro Metal Effect Acrylic Paint onto the icon plate using a spatula.

3. When dry, place the Fiskars shape template onto the icon and apply Ferro Metal Effect Acrylic Paint inside the template using a spatula.

4. Repeat and whilst the last layer of the Ferro Metal Effect Acrylic Paint is still wet, press a wet stamp into the paint.
