

## A Bead Chain Necklace with a Pendant

v12798

The bead chain necklace requires no extra clasps. It is easy to open, close this necklace and to change pendants. The pendants are assembled with a round jump ring.

### *Comment faire*

**1.** Open the solid silver ring with two flatnose pliers. Open the ring by twisting the ends at the joint sideways (never apart).

**2.** Attach a small round jump ring in the loop of the small pendant and close it.

**3.** Attach the chosen pendant in the solid silver ring and close it so closely that the ends scrape against each other.

**4.** Cut a piece of bead chain necklace at desired length. Thread the pendant onto the necklace and close the necklace. Quick and easy! It is now easy to change the pendant.
