A Tray with a Collage from Photos and Drawings

v12759

A wooden tray, painted and decorated with a collage.

Comment faire

1. Paint the tray with Plus Color craft paint and let it dry.

2. Copy selected photos or print them out on thick paper. Now tear them along the edges. Doe the same to drawings and pieces of coloured paper. Now put together the above to form a collage onto a piece of card the size less approx. 1cm all the way around of the interior measurement of the inside of the tray. Use a glue stick to attach the components of the collage.

3. Now attach the glass plate to the inside of the tray using mounting glue and place it on top of the collage in the tray.
