

A Small Wooden Storage Box, decorated with a Collage

v12758

This small wooden storage box is great to use as a pencil and pen holder etc. It has been decorated with collage in a picture frame.

Comment faire

1. Make a drawing or a painting for decorating the box. You may choose to decorate the storage box with photos.

2. Cut out the drawing with a pair of scissors so that it can be part of the collage.

3. Cut a piece of card the same size as the piece of wood which forms the backing of the box's picture frame. Glue the collage onto the picture frame backing. The collage consists of the cut-out drawing and small pieces of torn card in different colours.

4. Paint the box with Plus Color craft paint and insert the collage into the picture frame of the wooden box.
