

Christmas Trees made from Card

v12701

Punched-out card trees are covered with Vivi Gade Design decoupage paper using a glue stick. Floral wire is used for making the stars on the top.

Comment faire

1. Glue decoupage paper onto the punched-out trees using a glue stick. Cover both sides of the tree with decoupage paper. Let the glue dry.

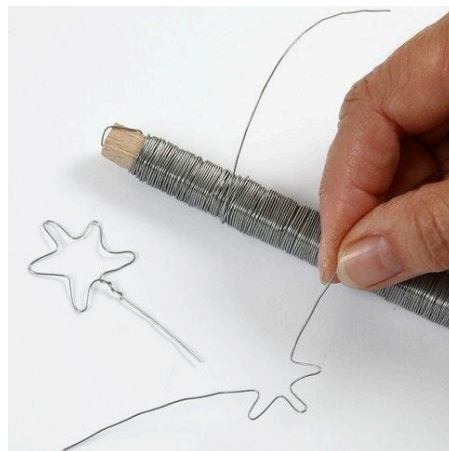

2. Trim the card trees.

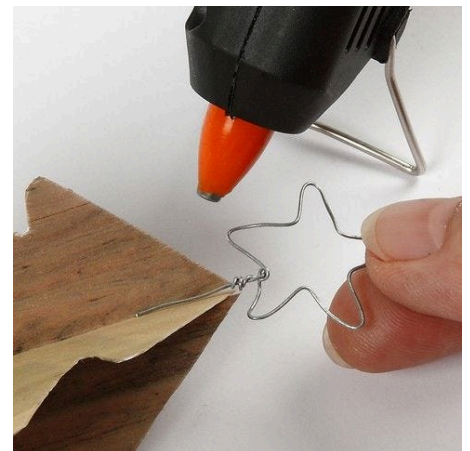

3. Cut one tree half way through at the top and the other at the bottom.

4. Assemble the tree as shown.

5. Shape a star from floral wire.

6. Attach the base of the star onto the Christmas tree with a little bit of glue using a glue gun.
