# Earrings made with Wire Wrapping Tools
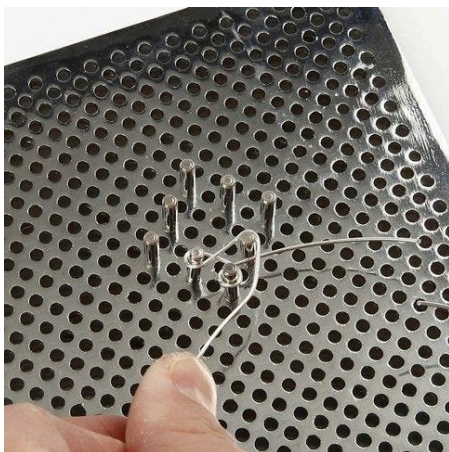

v12603

Bohemian style earrings made with the wire wrapping tools.

## Comment faire

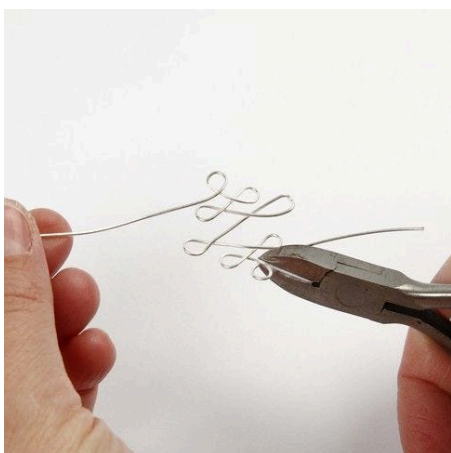

**1.** Insert the metal pins into the aluminium board in a desired pattern.

**2.** Wrap a piece of metal wire around the pins.

**3.** Finish by making a loop.

**4.** Cut off the excess wire.

**5.** Put beads onto a head pin and bend it to one side.

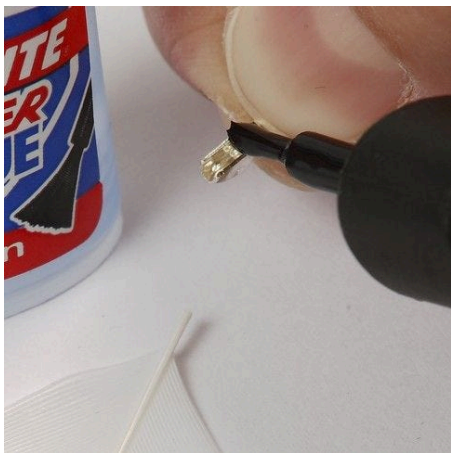

**6.** Make a loop.

**7.** Cut off the excess pin.

**8.** Attach the pendant to the metal shape made with the wire wrapping tool set.

**9.** Cut a feather in half. Remove some of the soft feathers where the cut was made to create a small piece of bare "stalk".
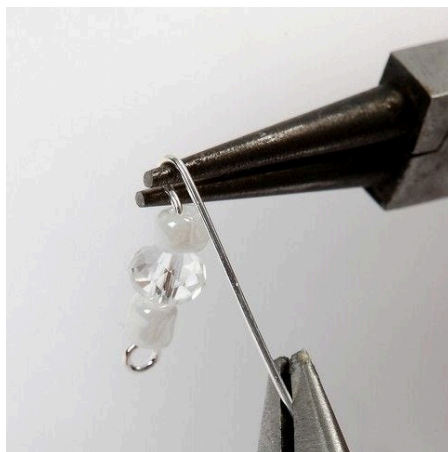

**10.** Glue the small stalk into an end cap.

**11.** Squeeze the end cap.

**12.** Attach the pendant feather to the metal shape made with the wire wrapping tool set.

**13.** Put beads onto an eye pin and bend it.

**14.** Twist to form a loop.

**15.** Cut off the excess pin.

**16.** Hand the pendant onto the metal shape made with the wire wrapping tools and close the loop.

**17.** Open the loop at the other end.

**18.** Attach a French earwire and close the loop again.
