

A Howlite Necklace

v12601

Howlite beads are threaded onto a piece of beading wire and then decorated with an organza flower.

Comment faire

1. Thread beads onto a long piece of beading wire measuring approx. 150cm. Thread on a crimp bead between the last and the second last bead.

2. Pull in the two middle wires in the opposite side.

3. Squeeze the crimp bead flat.

4. Cut off the excess wire.

5. Apply glue to the felted back of the flower so that the felt will not absorb too much.

6. Glue the back of the brooch onto the back of the flower.

7. Now the brooch can be attached across the doubled necklace.
