

A Keyring from a Silicone Bracelet

v12587

Using a silicone bracelet as a keyring is a quick and easy idea. A bead is threaded onto a silicone bracelet and a knot is tied before closing the bracelet.

Comment faire

1. Thread a bead onto the silicone bracelet.

2. Close the bracelet and twist it to form a number eight.

3. Insert two fingers through the hole, grab the cord and pull it through.

4. Tighten the knot.

5. Open the lock and put the key onto the keyring.
