

Bracelets with Glass Beads

v12586

Glass beads, silver fashion links and pendants are threaded onto a 1mm elastic beading cord and finished with four or five tight knots.

Comment faire

1. Attach an oval ring in the loop of the pendant.

2. Thread the beads and pendants onto the elastic beading cord. Always finish with a bead with a large hole to hide the knot inside.

3. Tie four or five very tight knots – preferably reef knots. Cut off the ends and pull the knot inside a bead.
