

A Bucket Hat with neon 3D Liner

v13021

This bucket hat is decorated with 3D Liner in different neon colours. It is easy in practice, and the 3D Liner also has the added advantage that it does not require fixing.

Comment faire

1. Decorate the bucket hat with the bottle tip of the 3D Liner which is ideal for making dots as well as lines. Let the bucket hat dry for a minimum of 48 hours. Now the finished bucket hat may be washed by hand or inside out in the washing machine at a low temperature.
