

Plastic Eggs with Napkin Decoupage

v12979

These plastic eggs have been painted with Plus Color Craft paint and then decouped with napkins and decorated with feathers.

Comment faire

1. Paint the egg with Plus Color Craft paint.

2. When the paint is dry, place small pieces of napkin onto the egg and glue them in place with decoupage lacquer. NB! For a shiny egg apply several coats of decoupage lacquer on top of the napkin.

3. Glue a feather inside a wooden bead.

4. Cut off the excess end of the feather.

5. Glue the bead with the feather onto the pointed end of the egg.

6. Insert a metal hanger in the other (rounded) end of the egg.
